The IMF occurred. It was a hard time for my fathers business but fortunately nothing terrible happened.	I was born! My father managed to send my mom to America even at the hard times	My father's best buddy passed away so my he started becoming aware of his health so finally stopped smoking! This was a very big celebration to our family.	My father's company became a member of the KBIZ. So he started getting very busy and a little famous. He was even invited to the Blue House to meet the President of Korea and a lot of other formal places and received a lot of awards.	I came to KIS! It was a big event for me because I went to my old school for 7 years.
